Perennials Meriting Consideration

HEMEROCALLIS (Day Lily)

Dr. Regal—Handsome rich orange yellow flowers in May. Each 30 cents.

Modesty—A glorious shade of large chrome yellow flowers, making a grand display in late June or July. Each 50 cents.

The Gem—Rich orange yellow flowers in June. Each 30 cents.

Hyperion (New)—A very beautiful pale yellow day lily blooming in August. Fragrant. Plant vigorous. Each 60 cents.

Gypsy—July and August. Brilliant deep orange flowers. Stems slender and the plant is of medium size. Each 30 cents.

Mrs. W. H. Wyman—August; lovely light pale lemon yellow flowers on 4 foot stems. Very free flowering. Each 50 cents.

PARDANTHUS (Blackberry Lily)

Chinensis—A lovely old fashioned flower for the border. Orange colored flowers on 24 in. stems. Seed pods resemble blackberries. Each 25 cents.

RANUNCULUS

An upright double yellow buttercup, blooming in early June. Flowers similar to the double feverfew. Good for cutting. Each 25 cents.

ASTILBE—Gloria

A dwarf astilbe blooming in July. Flowers, feathery plumes of deep pink. Foliage dark green. Each 35 cents.

HARDY ASTER—Hilda Ballard

New—A strong growing branching variety. Leaves rich green. The enormous flowers are of a beautiful opalescent mauve color. Each flower has a deep fringe of rays which are particularly soft in appearance. Each 40 cents.

PYRETHRUM—Pink Bouquet

A large flowered double painted daisy, having 5 to 8 flowers on each stem. Outer ray petals in double row deep pink, center, clear full double white. Each 35 cents.

SHASTA DAISY—Esther Reed

Pure white double flowers of good lasting quality. The blooms appear continuously throughout the summer and measure 4 inches in diameter. Each 40 cents.

RUDBECKIA—The King

An improved purple cone flower with broad deep crimson red petals and rich coppery bronzy cones. The petals never fold back or droop. Each 35 cents.

TWO NEW PHLOX

Blue Boy—This is said to be the bluest phlox we have had. Very free flowering with a leathery foliage. Rather low, broad flowering habit. Each 30 cents.

Rosenteller—Dwarf. Very large bright pink flowers in dense panicles. Long period of bloom. Each 40 cents.

Our Nursery is State Inspected.

You Are Cordially Invited to Drive Out and See Our Gardens

Judge for yourself the hardy quality of our plants and the wide variety of species, and if you desire suggestions or help in planning your garden arrangements, we shall be glad to assist you.

LILIES

Regal—White with yellow center. Exterior of petals tinged pink.

Speciosum Rubrum—White, flushed pink, heavily spotted with carmine.

Double Tiger Lily—Beautiful double orange flowers.

Any of above, each 25 cents.

Philippinense formosanum—A fine white lily, later than the regal. Each 30 cents.

We will be glad to send a copy of this catalog to your friends.

Everblooming Outdoor Roses

Northern Grown Stock. Planted in the new Cloverset pots, nice green sturdy plants ready to set in your garden without danger of wilting or being disturbed. Will start to bloom early in June.

Prices (except for patented varieties), Each Only 85 Cents.

FAVORITE HYBRID TEA VARIETIES

Briarcliff—Handsone flowers of silvery-rose pink; long pointed buds; fragrant and long lasting.

Etoile de Hollande—The finest dark red rose for general purposes. A heavy bloomer, fragrant.

Frau Karl Druschki—Pure white, long immense buds and perfect double flowers. Blooms all the time. One of the best white roses.

Grenoble—Glowing scarlet red. The fully double and large size blooms are borne on long stems. Plant very vigorous.

Gruss an Teplitz—Color a velvety crimson. Blooms are in clusters and very fragrant. A strong growing plant which succeeds under the most ordinary conditions.

Heinrich Gaede—Vigorous and free blooming. Large double orange yellow nasturtium colored flowers. Fragrant and a free bloomer.

Margaret McGredy—A handsome double rose of orange vermillion. Seldom out of bloom. Very popular.

McGredy's Yellow—Large bright buttercup yellow flowers of perfect form. Growth is upright, disease-free. Leaves glossy dark bronze green.

Mrs. E. P. Thom—A beautiful free blooming lemon yellow rose, sweetly scented. Excellent foliage.

Mrs. Sam McGredy—Large, fairly double bloom of orange-salmon with a suffusion of gold. A vigorous healthy plant.

Pink Dawn—A vigorous rose producing an abundance of well formed, double flowers of glistening deep rose and opening to lovely pink, tinted with orange at the base of the petals. Fragrant.

Radiance—A popular standard rose with large brilliant rose pink blooms.

Prince Felix—Well-formed bloom of brilliant scarlet red. Plant tall, healthy, of Radiance type.

Roslyn—Full golden yellow bloom, deeper in center with orange splashings on back of petals.

Talisman—A well known rose with scarlet orange and rich yellow flowers. Fragrant and free blooming.

You can plant them in full bloom and Presto! your rose garden is complete.

PATENTED VARIETIES

Countess Vandal (Pat. 38).—A great favorite. The flowers are coppery bronze and pink suffused with gold. The buds are long pointed. The plant is exceptionally free from disease and easily cultivated. Each \$1.15.

Matador (Pat. 170).—The blooms are large and full; well formed, scarlet crimson with darker silky sheen on the reverse; fragrant. A vigorous, healthy plant. Each \$1.15.

McGredy's Sunset (Pat. 317).—An outstanding rose not easily resisted by the rose lover. The outside of the petals is a clear buttercup yellow, tipped orange, while the inside is chrome yellow, flushed with scarlet as it opens. At its best when fully open. Fragrant and free-blooming. Words fail to describe its beauty. New low price, each \$1.40.

Signora (Pat. 201).—Long buds of a warm burnt sienna opening to a lighter hue toward mandarin. Plant tall growing with handsome foliage. Each \$1.15.

CLIMBING ROSE; Blaze (Pat. 10)

The first hardy everblooming scarlet climber. Blaze gives a plentiful supply of vivid scarlet flowers in the first blooming and then continues to flower intermittently all through the season. Each \$1.15.

(Roses continued on page 4)

FLORIBUNDA ROSES

Floribunda roses represent varieties especially bred for hardiness, sturdiness, ease of culture and mass effects. The habit of growth is of medium height, they are very winter hardy, disease resistant, blooming continuously in large clusters, and do not fade unpleasantly in hot summer suns.

Betty Prior (Pat. 340).—Outside of petals dark carmine, inside several shades lighter. Borne in large clusters on strong stems, very fragrant. Foliage pale green, tinted purple. Each \$1.00.

Donald Prior (Pat. 377).—Flowers semi-double, cup-shaped, bright scarlet, flushed crimson; fragrant. Foliage dark green. Each \$1.00.

World's Fair (Pat. 362).—This rose will furnish a continuous display of color from late spring until frost. Ideal, bushy plants bearing clusters of large velvety blooms of blackish scarlet. Each \$1.15.

CLOTRACIDE The Complete Rose Spray

In addition to copper, which is the best known fungicide, Clotracide contains other toxic substances together with the essential spreading and wetting ingredients. It leaves very little residue on the foliage and practically no discoloration. Directions for use on each package. Enough for 5 gallons of spray (need not be all mixed at one time). 50 cents.

JUST A CHAT

To most of you receiving this catalog gardening is a hobby. If time permitted I would like to visit your garden and enjoy it with you; but after taking care of a growing business and serving my community as a 4-H Club Leader and a member of the local school board there is little time left for many of the things I would like to do. For my hobby, which is entirely different from the business, I have chosen stamp collecting, being especially interested in United States stamps, and seem to enjoy mostly the various types of pre-canceled stamps. So since I cannot chat with you personally I am writing this note.

It is now seventeen years since we issued our first price list and we get a great deal of satisfaction in knowing that we still have the privilege of serving many of you who came here for plants in the early years of our plant business. In comparing our first and last catalogs we find the more recent ones contain many more and much better varieties of plants. We feel that this is an indication of progress. Each year we eliminate and discard the less desirable varieties replacing them with new and better ones. It takes several years to discover how well a new variety will act under our local environment conditions.

Personally I enjoy testing the new creations and hope you do. It adds so much joy to our gardening activities.

Have you tried the new Anthemis, Moonlight? It is a continuous blooming hardy marguerite, comparatively free from the objectionable odor of many marguerites. Those who have tried it pass very favorable comments about it, and some are especially pleased with the variations in shade of the soft yellow flowers. It is suitable for cutting.

For the shady spots in your garden I think you would like the graceful plummy bleeding heart, *Dicentra eximia*, with its delicate fern-like foliage and pretty pink flowers.

The funkias are also desirable for shady places. Everybody likes the white flowered funkia subcordata, with its lily-like blossoms. The indications are that this may be a scarce item this spring. There are several funkias with variegated leaves. Thomas Hogg is a newer one.

The Giant Pacific Hybrid Delphiniums do themselves justice in producing large flowers on long spikes, and the colors are clear. Much work is being done in segregating them into varieties or series. I was well pleased with the Guinevera and Summer Skies series the past season. Guinevera is a light pink lavender self with a white bee, large flower and spike. While the flowers of Summer Skies are not quite so large, its beautiful light blue color makes it a desirable variety. The seed of all of these series is very costly but we are able to offer small potted plants, which will bloom this season, at a moderate price. Several other new varieties are being offered this season.

The newer Hemerocallis (day lilies) are pleasing subjects and will help to keep a continuous supply of showy flowers in your garden. There are varieties suited for each summer month. Hyperion is an outstanding variety with very large flowers of a soft lemon yellow during the month of August. Phlox Harvest Fire, with its brilliant, but soft salmon orange flowers is well worth a trial. Last year in our gardens it was a late bloomer and this may add to its desirability.

In our state roses are receiving special attention at this time. The establishment of the test garden for roses at Como Park will help us in discovering the merits of the various roses. Our rose department is entering its fifth year. The beautiful rose McGredy's Sunset (Pat. 317) was the most noticeable rose on our list last season. The color is buttercup yellow tinged with orange and scarlet. It is fragrant. All our roses are grown in Cloverset pots and can be transplanted at any time. We are pleased to announce a reduction in the price of our roses for this season.

General List of Perennials

ACONITUM—Monkshood

Fischeri—2 to 3 ft.; Sept. Blue flowers shaped like a monk's hood. The plant prefers a rich soil and will grow in sun but the flowers will last longer if in a shady place. It needs some winter protection. As aconites contain poisonous substances they should be kept away from children. Each 35 cents.

ALYSSUM (Basket of Gold)

Saxatile Compactum—1 ft. One of the earliest flowering plants; suitable for borders or the rock garden, making a spreading mat of golden yellow bloom. Foliage a gray green. When ripe the seed pods have a lace-like appearance and may be used in winter bouquets. Each 25 cents.

ANCHUSA (Alkanet)

Dropmore Variety—3 to 5 ft.; early summer and later if first flowers are cut as soon as wilted. Foliage rough and hairy, slightly gray. Flowers a rich gentian blue in loose panicles. A rather coarse appearing plant but fine in masses or as a border. Each 25 cents.

Barrelieri—Early dwarf variety. Apparently hardier than other varieties. Flowers blue. Each 25 cents.

ANEMONE (Pasque Flower)

Pulsatilla—6 to 9 in. Lavender flowers during April and May. Plant in full sun. Each 25 cents.

ANTHEMIS (Marguerite)

Moonlight—A new variety of the hardy Marguerite growing 2½ ft. tall, producing pale yellow flowers over two inches in diameter. Each 30 cents.

AQUILEGIA (Graceful Columbine)

Crimson Star—Large flowers, crimson and white. Each 30 cents.

Edelweiss—A low growing variety with large snow-white blossoms. An unusual variety. Each 25 cents.

Flabellata nana alba—A fine semi-dwarf clear white variety. Each 25 cents.

Longissimi—Unusually long spurred flowers of a pale yellow color. Each 30 cents.

Mrs. Nicholls—An improved Rocky Mountain Columbine. Deep blue and white flowers. Each 30 cents.

Rocky Mountain Columbine—A charming variety with blue and white flowers. Blooms very profusely. Each 25 cents.

Scott Elliott—A refined long spurred strain. Includes many fine clear colors. Each 25 cents.

ARMERIA (Sea Pink)

Lauchean—A tufted plant with grass-like leaves and bright rosy flowers all summer. Each 25 cents.

ARABIS (Rock Cress)

Double White—A most beautiful variety of rock cress, clear white double flowers. Each 30 cents.

Rose—A single flowered variety of a soft pink color. Each 25 cents.

Spring Charm—Intense carmine flowers. Each 30 cents.

ARTEMISIA (Sage Brush)

Lactiflora—3 ft. August and September. A tall growing plant of fine foliage and heads of small white flowers. Fragrant. A good cut flower. Each 25 cents.

Silver Beauty—2 ft. Foliage and flower spikes silvery gray. Fine in bouquets of mixed flowers. Each 25 cents.

ASCLEPIAS (Butterfly Flower)

Tuberosa—18 in. July and August. Bright orange colored flowers which last a long time as cut flowers. Each 25 cents.

HARDY ASTERS

For Beautiful Fall Gardens

DWARF VARIETIES

Countess of Dudley—Clear pink.

Marjorie—Rose pink.

Snowsprite—White.

Victor—Blue, very fine.

Each 25 cents

TALL VARIETIES

Barr's Pink—4 to 5 ft. A fine standard aster having a profusion of pink flowers.

Beechwood Challenger—Medium height, flowers small, crimson-red. Small plants. Each 25 cents.

Blue Gem—2 to 3 ft. Small, rich blue flowers.

Chas. Wilson (New)—3 ft. Red.

Col. Durham—Large bright blue flowers 3 to 4 ft. Each 25 and 35 cents.

Harrington Pink (New)—3 ft. Salmon-pink. The finest pink aster. Each 35 cents.

Mrs. Francis Childers—Good sized flowers of a rosy red color.

Mt. Everest—3 to 4 ft. The finest and best white aster. Each 30 cents.

Purple—5 ft. Large purple flowers.

Skyland Queen—3 to 4 ft. An outstanding bright-blue aster. Flowers very large. Each 25 and 35 cents.

Strawberries and Cream—A medium height pale pink flowered aster.

ASTER SPECIES

Amellus Beauty of Ronsdorf—2 ft. August to September. Large lilac-rose flowers in great profusion.

Frikarti, Wonder of Staffa—Lavender-blue flowers from 2 to 2½ in. across. Blooms all summer. Potted plants, 25 cents.

Star of Eisenach (Wartburg Star)—Large bright lavender blue flowers. Yellow centers. Each 35 cents.

All Asters except where noted 25 Cents Each

BAPTISIA (False Indigo)

Australis—3 ft. Dark blue pea-shaped flowers in June. Very attractive foliage all summer. Needs considerable space as it gets older. One year plants, each 20 cents.

BOLTONIA (False Chamomile)

Boltonias prove their value during the months of August and September. They will grow in any soil; sun or shade. If grown in the shade they may need staking. To produce large flowers divide the clumps every three years, or cut out some of the stems in the spring. The head of the plant is wide spreading and bears many aster-like single flowers. **Pink or white.** Each 25 cents.

CALAMINTHA (Calamint)

Alpina—A pretty little rock garden or edging plant with many rich purple flowers. Will grow in full sun or partial shade. Each 25 cents.

CHARMING CAMPANULA (Bellflowers)

Carpatica (Harebell)—One of the most satisfactory flowers for rockery or hardy border. It is perfectly hardy, and will grow in either sun or shade. The bell shaped flowers are borne on long slender stems, from summer until frost. **Blue or white.** Each 25 cents.

Collina—Upright, compact, bushy habit. In May and June it is thickly covered with intense campanula blue pendent flowers. Each 25 cents.

Garganica—A fine plant for the rock garden. The blue flowers are star-shaped and have a white eye. Each 25 cents.

Pusilla—A low growing bell flower for the rock garden. The plant bears many tiny blue flowers. Each 25 cents.

Telham Beauty—A beautiful light blue peach bell. 2 ft. tall, with long spikes of flowers. Each 30 cents.

CANTERBURY BELLS

A well known biennial. Cup and Saucer variety. In three colors—**Rose, White or Blue.** Each 25 cents.

EARLY CHRYSANTHEMUMS

Cushion Class—Small double flowers in great profusion. **Pink, yellow, bronze.** Each 25c cents.

Korean (Hestia)—Semi-double flowers on compact bushy plants. Delicate rose-pink. Each 25 cents.

Korean (Thalia)—A compact bushy plant with tan colored flowers. Each 25 cents.

Pigmy Gold—A dwarf pompon type producing quantities of miniature blossoms over one inch across. The color is a clear golden yellow. Commences to flower in early September. Each 25 cents.

CHRYSOBOLTONIA

A showy and easily grown perennial growing about 30 inches high and bearing large graceful white flowers with pink shading. Said to be perfectly hardy. Each 30 cents.

COREOPSIS

Lanceolata Grandiflora—Coreopsis; 2 to 3 ft.; summer. Large, bright yellow flowers on long stems. Each 25 cents.

STATELY DELPHINIUMS

Giant Pacific Blue—An American strain producing long spikes of very large flowers in various shades of blue. More disease resistant than many strains. Clumps 50 cents; 3 for \$1.25. Small plants, blooming size, each 20 cents.

Giant Pacific White—The finest strain of white delphiniums that we have seen. Clump 60 cents. Small plants, blooming size, each 25 cents.

Guinevere—Light pink lavender self with white bee. Flowers 2½ to 3 in. in diameter. Very beautiful. Each 75 cents, small plants, each 30 cents.

Summer Skies—Light blue with white bee. Flowers medium size. Thin woody stem. Each 75 cents, small plants, each 30 cents.

Black Knight—Very dark flowers with heavy velvety texture. Small plants, each 30 cents.

Blue Bird—Clear medium blue with huge tall spikes. Small plants, each 30 cents.

Lanceolat—Pure lilac self tone with white eye. Small plants, each 30 cents.

Blackmore & Langdon's Prize Strain—An unsurpassed strain of English Hybrid delphiniums. Every plant produces an excellent spike of flowers. The color range is fine and the colors are clear and bright. There is a good proportion of large double and semi-double flowers. Seed imported from England. We recommend this strain highly. 2 year old plants, each 30 cents; dozen \$3.00.

Large Flowering Hybrids—Single flowered, light or dark blue. Each 25 cents.

Indigo Blue Hybrids—The best strain of dark

blue Delphiniums we have grown, containing some unusually choice specimens. Each 25 cents.

Belladonna—2 to 3 ft. We are growing an improved strain of this ever popular light blue Delphinium. The flowers are not as large as in the hybrid strains, but the plant bears many more spikes of flowers. Each 25 cents; 12 for \$2.50.

Bellamosum—Dark blue; type similar to Belladonna. Each 25 cents; 12 for \$2.50.

Lamartine—Fairly deep extra bright marine blue. Similar to Bellamosum. Each 25 cents.

Blue Gem—Chinese type; 12 in. A low-growing Delphinium with finely cut leaves. Flowers rich dark blue. Suitable for the rock garden. Each 15 cents.

DAISIES (White)

Alaska—One of the best Shasta Daisies. 24 to 36 in.; summer. Large white flowers, 4 to 5 inches in diameter, on long stems. Each 25 cents.

Hartje & Elder—24 to 30 in.; May to July. A medium sized white Daisy borne on stiff stems. Always in bloom by Decoration Day. Should be divided each year. Each 25 cents.

June Daisy—A medium sized white daisy blooming all season. Each 25 cents.

Giant Daisy—A tall growing fall blooming white Daisy. Very hardy. Each 25 cents.

DIANTHUS (Pinks)

Plumarius Semperflorens—An everblooming Hardy Garden Pink; 1 ft.; all summer. Pinks are of the easiest culture, preferring a warm soil. They are universal favorites and make excellent border plants. Each 25 cents.

Her Majesty—A pink of the plumarius type with large pure white double flowers. Each 25 cents.

Jock Hybrid, Double Pink—A pretty, low growing double dianthus. Flowers pink. Each 25 cents.

Rose Cushion—4 in. From a little cushion of grey-green foliage, hundreds of straight stems arise and in May the pure pink flowers appear. Each 25 cents.

DICENTRA (Bleeding Heart)

Spectabilis—1 to 2 ft.; spring. Attractive hardy perennial plants with much cut foliage and long racemes of graceful pink heart-shaped flowers. Easily cultivated; desires part shade. Each 50 cents.

Eximae—Plumy Bleeding Heart; 15 in.; April to August. Foliage finely cut and very attractive. Each 25 cents.

DIGITALIS (Foxglove)

2 ft.; June and July. A favorite biennial having many bell shaped flowers on long spikes. Each 25 cents.

EDELWEISS

Leaves silvery white; flowers a starlike head covered with a dense white wooly substance. A native of the Alps. Each 25 cents.

FUNKIA (Plantain Lily)

Lanceolata—August and September. A plantain lily suitable for shade or sun. Flowers lavender. Each 25 cents; 6 for \$1.25.

Subcordata grandiflora—Large leaves; pure white lily shape flowers in August. Each 35 cents.

Thomas Hogg (New)—A strong growing variety for shade or sun. Likes moisture. Large clear leaves with a silver edging. Lavender flowers. Each 30 cents.

GAILLARDIA (Blanket Flower)

Portola—2 ft.; all summer. Probably no other perennial has as many flowers in a season as the Gaillardia. If all dead flowers are removed the plant will continue to bloom until heavy frost. The flowers come in various combinations of red and yellow. Excellent for cutting. Each 25 cents.

GEUM

Fire Opal—Came through the past winter without cover, in our gardens. Flowers red. Each 25 cents.

GYPSOPHILA (Baby's Breath)

Bristol Fairy—We recommend this choice double-flowered variety as being far superior to the common single baby's breath. Each 60 cents and 30 cents.

Oldhamiana—A beautiful pink flowered variety. Good for cutting. Each 25 cents.

Rosy Veil—A dwarf pink free flowering double Gypsophila. Each 30 cents.

HELIOPSIS (Orange Sunflower)

Lemoine's Giant—3 ft. A very brilliant border plant resembling a small sunflower. Flowers single to double. Blooms over a very long period and makes a good display in the border. Each 25 cents.

HELENIUM

Chippersfield Orange (New)—4 ft. Large heads of copper and gold flowers in August and September. Each 35 cents.

Peregrina (New)—3 ft. Flowers large, shining dark mahogany with touches of yellow on edge of petals. Excellent for cutting. Each 40 cents.

Riverton Beauty—Flowers pure lemon yellow with a disc of purplish black. Each 25 cents.

HELIOTROPE

A hardy garden heliotrope growing about three feet tall. Flowers pale pink. Fragrant. Each 25 cents.

HEUCHERA (Coral Bells)

Queen of Hearts—Deep glowing coral-scarlet, long period of bloom; flowers large and abundant. A new novelty. Each 50 cents.

Rosamundi—A desirable coral pink variety. Free flowering. Each 30 cents.

Sanguinea—1½ ft.; July and August. Crimson scarlet flowers. Prefers an open situation. Suitable for rockeries. Each 25 cents.

HIBISCUS (Mallow)

Plants 3 to 4 ft. high, bearing large cup like flowers similar to Hollyhocks. **Red, pink or white.** Each 25 cents.

HOLLYHOCKS

Double flowers, **Rose, Maroon, Yellow, Salmon or mixed.** Each 20 cents.

INULA (Fleabane)

Hirta—10 to 12 in. Brilliant yellow daisy-like flowers in July and August. Each 25 cents.

LINUM (Flax)

Perenne—2 to 3 ft.; all summer. Bush-like plants, producing daily an abundance of blue blossoms. As a rule the blossoms close about noon. The plants prefer an open, warm place. Plant as early as possible for best results. A very showy plant when planted in masses. Each 25 cents.

Flavum—A very desirable yellow flowered variety of hardy flax. Blooms continuously if dead blossoms are removed. Foliage entirely different from the blue flax. Each 25 cents.

LOBELIA (Cardinal Flower)

Cardinalis—3 ft. A native American plant having vivid scarlet flowers. Each 30 cents.

LUPINES

A nice sized group of Lupines with their foot or more long spikes of flowers will make a beauty spot in any garden during the early summer. Transplant early.

Polyphyllus—Moerheimi, Pink.

Harkness Hybrids.

Each 25 cents.

LYCHNIS (Maltese Cross)

Chalcedonica—3 ft. The common tall red form of the Maltese Cross or Catch Fly. Each 25 cents.

Haageana—A dwarf form with large scarlet flowers. Each 25 cents.

Viscaria—10 in. Pink flowers in June and July. Each 25 cents.

MERTENSIA (Virginia Blue Bells)

A beautiful early blooming plant, with blue bell-like flowers fading to pink. Potted plants, each 30 cents.

MONARDA (Bergamot)

Didyma—Attractive plants for the semi-shady or sunny border, growing from 2 to 3 ft. high and bearing brilliant crimson flower heads from June to August. Each 25 cents.

Scarlet—Each 20 cents.

MYOSOTIS (Forget-Me-Nots)

Nearly everyone is familiar with the charming bright blue flowers of the Forget-Me-Not. They prefer partial shade and plenty of moisture. Height 6 in. Each 25 cents.

OENOTHERA (Evening Primrose)

Tall—2 ft. Bright yellow flowers. Each 25 cents.

PENTSTEMON (Bearded Tongue)

Barbatus Torreyi—2 ft. Spikes of bright scarlet red bell shaped flowers from June to August. An excellent cut flower to arrange with delphinium. Each 25 cents.

PAPAVER (Poppy)

Oriente—Two year old plants in Cloverset pots for spring planting. Oriental Hybrids. Each 30 cents.

Pink Shades—In Cloverset pots. Each 35 cents.

Nudicaule (Iceland Poppy)—1 ft.; all summer. A short lived perennial, having cup-shaped flowers on long slender stems. The graceful flowers arise from a neat tuft of finely cut leaves. The bright colors of the flowers and their long keeping qualities after being cut make the Iceland Poppy a desirable plant for any garden. Mixed colors. Each 10 cents.

BEAUTIFUL PHLOX

Africa—Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Each 25 cents.

Albert Leo Schlageter—Glowing, brilliant scarlet-red blooms with orange sheen. Each 35 cents.

Augusta (Patented) — Cherry-red, leaves bronze green. Very choice. Each 50 cents.

B. Comte—A variety of medium height having large heads of rich satiny amaranth colored flowers. Each 25 cents.

Beacon—Brilliant cherry-red, grows about 3 feet tall. Straight strong stems. Each 25 cents.

Border Gem—3 ft. Large trusses of well formed violet blue flowers. Each 35 cents.

Border Queen—A dwarf outstanding phlox with large florets of a watermelon pink. Has been very satisfactory in our garden trials for several years. Each 30 cents.

Col. Mangel—Tall; heavy trusses of brilliant rose-scarlet; non-fading. Each 35 cents.

Count Zeppelin—Flowers pure white, with a vermilion-red eye. Free-flowering and a good grower. Each 25 cents.

E. L. Farrington—A new soft salmon pink phlox, with lighter eye. Each 25 cents.

Enchantress—Bright salmon pink with dark eye. Each 30 cents.

Ethel Pritchard—French mauve, almost blue. If possible plant next to yellow or white flowers. Each 30 cents.

Firebrand—Medium height. Flowers a brilliant orange-scarlet. Each 25 cents.

Harvest Fire—Brilliant salmon-orange color on a vigorous bush. Disease resistant foliage. Each 35 cents.

Lillian—A beautiful early salmon pink. Each 30 cents.

Miss Lingard—The best early white. It has a pale pink eye. Continuous blooming throughout the summer. A most desirable variety. Each 25 cents.

Morganrood—Flowers a bright rose with deeper eye. Each 30 cents.

Mrs. Chas. Dorr—A tall variety with lavender flowers. Each 25 cents.

Mrs. Jenkins—A standard late blooming clear white variety. Each 25 cents.

Mrs. R. P. Struthers—A large flowered variety with rosy carmine flowers. Each 25 cents.

Nordlight—Tall; carmine-pink with red eye. Each 30 cents.

Starlight—Large flowers, violet with white center. A tall grower. Each 30 cents.

Tigress—Novelty brilliant orange-scarlet flowers. Long period of bloom. Each 35 cents.

Thor—A popular salmon colored variety. Each 25 cents.

Von Lassburg—A free flowering, tall white variety. Each 25 cents.

PLATYCODON (Chinese Balloon Flower)

Grandiflora—Platycodon with its large blue bell shaped flowers bloom during the summer months when there is a scarcity of perennial flowers. A very satisfactory plant for the sunny border. Grows 2 to 3 ft. high and has long spikes of flowers which last a long time. Since the platycodons do not start growth until late in spring it is advisable to mark the location of the plant with a stake.

Blue or Pale Blue, each 25 cents.

Double, Blue, each 35 cents.

LOW GROWING PHLOX

Phlox Subulata—Moss Phlox. One of the most attractive and most satisfactory plants for the rockery or the hardy border. Plant in groups of 3 to 6 plants and you will have a fine display of color about the end of May.

Colors: Rose, White and Purple. Each 25 cents.

Fairy—A compact growing variety with blue flowers. Each 25 cents.

Blue Hills—A new blue variety. Each 25 cents.

Rochester—A deep pink. Each 25 cents.

Phlox Divaricata—A very early blooming phlox with lavender flowers. Good for planting among tulips as a ground cover. This phlox combined with arabis and yellow crocus makes an excellent combination to plant at the base of trees. Each 25 cents.

PHYSOSTEGIA (False Dragon's Head)

Virginica Vivid—Good plants for the sunny border and of easy culture. The deep pink flowers are borne on terminal spikes, and will last a long time when cut. Each 25 cents.

Summer Glow—A very tall variety with rosy crimson flowers. Each 25 cents.

PYRETHRUM (Painted Daisy)

2½ ft.; June. Daisy-like flowers with yellow centers, on long stiff stems. Suitable for cutting.

Roseum—Pink.

Atrosanguineum—Mostly red shades. Each 25 cents.

RUDBECKIA

Golden Glow—6 ft. A good plant for the rear of the garden. Bright yellow flowers similar to small double chrysanthemum. Each 25 cents.

SALVIA (Meadow Sage)

Pratensis—2 ft.; blue flowers in June. Each 30 cents.

Azurea—3 to 4 ft. Sky blue flowers in August and September. Each 25 cents.
